# Storage Systems

DEDICATED TO HUMAN WORKSPACE

# Storage Cabinets

Cabinets, which combine a stylish industrial design with practical accessories to provide flexible and efficient small parts storage. Available in two cabinet sizes, 21.65" and 11.42" high. A compact storage system: one cabinet offers storage for up to 360 different items. Designed with drawer handles recessed within the frame for additional protection during transport. The cabinets can be wall mounted, stood on the worktop, or mounted on space-saving turntables.

## Visible Storage Cabinet - Series 550

The design combines the use of a durable, dark grey (RAL 7016) polypropylene frame and galvanized steel shelves in such a way that small drawers of crystal clear polystyrene sit securely within the framework. Self adhesive labels are provided for each drawer. Seven different alternatives at 21.65" high. Small drawers, see page 3. Accessories: width and length dividers.

# Shelf Bins

Full width label with protective shield is easy to keep clean and change when necessary. The label is included in the price.

Corrugated base eases the picking of very small items.

The shelf bins are particularly suitable for use in small parts retrieval systems and mobile shelving.

Individual bins can be sub-divided internally using dividers, ordered separately.

The shelf bins feature a molded in label holder on inside rear wall of bin and on the divider. Labels ordered separately.

Blanking piece FP-6 M to produce flat surface for adhesive barcode labels on inside rear wall of bins. The adhesive labels are suitable for the smooth side of the divider.

Treston shelf bins provide an ideal way of storing small/medium sized items in maintenance, production and stores. The shelf bins are particularly suitable for use in small parts retrieval systems and mobile shelving. Four sizes in depths of 11.81", 15.75", 19.69", or 23.62". Bright colors are available for easy color coding systems. A new grey color has been introduced to this range. Crystal clear bins, even when using the index label provided, allow visible identification of bin contents. Corrugated bases ease the picking of very small items. Full width label with protective shield is easy to keep clean and change when necessary. The label is included in the price. Optional accessories: width dividers (translucent plastic), labels, blanking piece FP-6M to produce flat surface for adhesive barcode labels on inside rear wall of bins.

# Transparent Shelf Bins

## Shelf Bins

### Blanking piece

FP6M Blanking piece to produce flat surface for adhesive barcode labels on inside rear wall of bins.

# Stacking Bins

The open fronted design allows for easy access.

Corrugated base eases picking of small items.

Bin rail 700 for stacking and picking bins. The rail of grey epoxy enameled (RAL 7045) steel. With bracket for wall mounting. Length 27.56". Suitable for stacking bins 1015-1930, ordered separately.

Designed to facilitate easy stock selection and picking. The open front gives easy access, and the corrugated base helps to retrieve contents, especially smaller sized and flat objects. 8 sizes available. Our stacking bins are suitable for stands, trolleys, bin rails, table stand, standard metric shelving and parts retrieval systems. Bright colors are available for color coding. A new grey color has been introduced to this range. The crystal clear bin allows visual identification of the contents, even when an index label is used. Accessories: width dividers of grey epoxy enameled steel (RAL 7035). Labels with protective self-adhesive, bin rail 700.

# Stacking Bins

Full width label with protective self-adhesive shield is easy to keep clean and change when necessary. Labels ordered separately.

Width dividers of grey epoxy enamelled steel (RAL 7035).

The adhesive labels can be fixed to the front side and to the divider.

# Bin Trolleys

The free standing bin trolley is a compact storage system for use in production, maintenance and storage areas. With the bin trolley you can bring mobile storage directly to your workstation. Trolleys available in M30 and M36 widths.

**Bin Trolley 1**

## Bin Trolley 1

Free standing frame of epoxy powder coated steel in grey (RAL 7035). 4 adjustable bin rails are included, which may be tilted 15° for easy viewing and picking. Assemblies include handle and four casters Ø 3.94", two with brakes. Total load capacity is 660 lbs. Stacking bins are ordered separately. Available in ESD. Bottom shelf ordered separately.

**Bin Trolley 2**

## Bin Trolley 2

Free standing frame of epoxy powder coated steel in grey (RAL 7035). 16 adjustable bin rails are included, which may be tilted 15° for easy viewing and picking. Assemblies include handle and four casters Ø 3.94", two with brakes. Total load capacity is 660 lbs. Stacking bins are ordered separately. Available in ESD. Bottom shelf ordered separately.

1950	5 pcs	30 pcs
3040	3 pcs	18 pcs
3050	3 pcs	18 pcs

## Specifications

### Semi-conductive polypropylene = PP

- surface resistivity  $10^3 \dots 10^6$  ohm
- volume resistivity  $10^3 \dots 10^6$  ohm
- temperature tolerance  $-4 \dots +158^\circ\text{F}$

### Semi-conductive polystyrene = PS

- surface resistivity  $10^3 \dots 10^6$  ohm
- volume resistivity  $10^3 \dots 10^6$  ohm
- temperature tolerance  $-40 \dots +149^\circ\text{F}$

High Visibility ESD Awareness labels on all ESD bins, and Storage Systems.

Ground lug on all ESD Storage Cabinets & Parts Organizers.
